

## Corner-Turn Career Change

**Have an idea of where you would like to make changes in your career, but need direction in training or specific skills needed to take the plunge?**

This package offers:

- One on one 1.5 hour vocational counselling session with a Career Development Consultant to explore your identified job types (up to two job types).
- Post-session report developed by Career Development Consultant which outlines training needs and available training providers to enter suitable job types identified in the vocational counselling session (up to two job types), and recommended action plan to help you take the plunge into your new career.
- Follow up 30 minute telephone session with a Career Development Consultant (generally one month after your initial session) to touch base and iron out any barriers that you have identified in undertaking your action plan.
